Re: Columbia University

Dear Jason:

I am in receipt of your letter of May 28, 2004 regarding materials submitted to the District Court by Biogen and Genzyme on May 26, 2004.

As far as I can tell, your disagreement is with Biogen and Genzyme, not Wyeth. While it seems like these materials are not confidential, since anyone can obtain them from the Court, as a courtesy we will handle them as if they were confidential and available solely to outside counsel to give you time to work things out. I assume that a week should give you enough time to either work things out or file a motion with the Court. If you file a motion, we will continue to handle the documents as confidential until the Court rules. Otherwise, unless we are informed that you and Biogen/Genzyme have determined that the documents must be placed under seal by June 8<sup>th</sup>, we will consider them public after that date.

We have not obtained the '159 application except to the extent filed with the Court.

I hope this alleviates your immediate concern.

Very truly yours,

Leora Ben-Ami
